

PLASTIC STORAGE CONTAINERS

Company Profile

Plastic Storage Containers was established in 1991 and the company's managing director has been in the materials handling industry for over 35 years.

The company operates in two main areas of the interiors market. The first is the design and manufacture of storage wall systems, which is all done in house. The second is the supply of industrial and commercial shelving and racking systems which include plastic storage containers and archive storage systems.

Plastic Storage Containers and their sister company steelshelving4u.co.uk are the UK's leading suppliers to the trade in both of the above areas and pride themselves on their high standard of service, offering quality products at competitive prices and with quick delivery.

- Suppliers of Shelving and Racking to suit all applications from light duty through to heavy duty and Pallet Racking which conforms to SEMA and FEM regulations.
- We have storage solutions for the smaller store room through to larger warehousing areas. We also supply Plastic Storage Containers, Safety Steps, Trucks and Trolleys.

Our products are supplied by a company established in 1991, the Managing Director of which has been in the materials handling business for over 35 years. I have been associated with the building industry since 1964 and have dealt with a wide range of specifications and sales of architectural fittings during that time.
